Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Integrating Google Gemini AI with the backend and handling API responses.	Configured the API securely using environment variables and validated AI responses before displaying results.
2	Coordinating frontend and backend development among team members.	Assigned clear responsibilities, conducted regular meetings, and used GitHub for version control and collaboration.
3	Debugging application errors and ensuring smooth integration of all modules.	Performed continuous testing, resolved issues collaboratively, and verified all functionalities before deployment.
